## OBJECTIVE

Seeking a challenging trainer project where I can apply my skills and enhance my knowledge with continuous improvement thereby to be an expert in software industry.

## CORPORATE TRAINING:

- 2 days training BDD approach (Specflow – C#) for BA, developers and QA team for better outcome of the project delivery.
- 3 days training on Mobile automation on Android and IOS and Specflow using C# for multiple project team at Eurofins, Bangalore
- 2 days training for developers, QA, BA team to work on Specflow (BDD) using C# and helped them in converting their application from Specflow 2 to Specflow 3 with customised extent report at Persistent, Pune.
- 3 days training on Selenium with C# for functional and developer team for up skilling their knowledge into Selenium Automation using C# language at Harman, Bangalore.
- 3 days training on Advance Mobile Automation Appium concepts for IOS and Android at BOA, Chennai.
- 10 days training through Microsoft team connect on Selenium C# with framework such as Data driven, Page object model, Database connection layer, NUnit, Hybrid driven, XML layer, JSON layer, Selenium Grid for the functional and automation team from various development center across India.
- 5 days training for functional team to pitch into automation using Selenium, TestNG, Page Factory, Data Driven Framework and also on BDD Cucumber at Equiniti India, Chennai.
- 4 days training which had four faces such as developing knowledge on C#, Selenium, Specflow and then mobile automation using Appium on Android and IOS platform at DHL, Malaysia.
- 3 days training for automation team to work on mobile apps automation (Dominos App of New Zealand – Client requirement) of Android and IOS platform using Appium at Analytics Quotient, Bangalore.
- 8 days training for functional tester to build an automation project using selenium with TestNG, Page Factory, Data Driven Framework, maven, GIT and Jenkins at Maveric, Chennai.
- 2 days training for the C# developer and tester to automate web pages using selenium concepts with C# and work with NUnit, Page object model and Data-Driven framework at Virtusa, Chennai.
- 2 days seminar for lateral batch on Selenium Advance using C# for designing the framework with high quality and with professional reports at Fiserv, Noida.
- 2 days training to automate the complete web page using selenium Python and also guided the practitioners to work with BDD Cucumber framework at CLSA, Pune.
- 4 days training for lateral batch on Selenium Advance for designing the framework with high performance and professional reports at Fiserv, Noida.

- 8 days weekend training for the lateral batch (Manual testing team) on Selenium with java and frameworks from scratch at Maveric Systems, Chennai.
- 3 days training for Selenium automation team to work on automating mobile application of Android and IOS using Appium at Mobily Infotech, Bangalore.
- 5 days training on Selenium with Java, Frameworks related to TDD, BDD Framework – Cucumber at Mobily Infotech, Bangalore.
- 8 days rigorous training on Java, Selenium IDE, Selenium WebDriver, Selenium Grid with Framework, Build Management tools - Maven, CI/CD - GIT and Jenkins at Maveric.
- 3 days training on Selenium Advance, Framework, Maven, GIT and Jenkins at Barclays, Pune.
- 6 days training on Java, Selenium automation, Database testing, Appium, Maven, Git and Jenkins at Capgemini, Bangalore.
- 30 days capstone project training at IBM on implementing selenium concepts in various framework., Build management tools and CI/CD.
- 10 days training on Selenium with Java, Framework, Cucumber at IBM.
- 4 days training on Selenium IDE, Selenium WebDriver with C#, Selenium Grid and frameworks to migrate a manual team to automation at Mphasis, Pune.
- 3 days training on C# - Selenium WebDriver and frameworks at Deloitte, Hyderabad for 2 days and at Deloitte, Delhi for 1 day.
- 6 days training at Maveric System on Selenium with Java and also trained on developing framework from scratch for manual team.
- 2 days training on Selenium C# with Specflow at JLT India for the lateral batch as project requirement.
- 3 days training at Ericsson Global India Pvt Ltd on Java, Selenium automation, Database testing, Maven, Git and Jenkins.
- 6 Days training at SLK Softwares on C#, Selenium, MS SQL- Database connections, Selenium Grid.
- 8 Days hands-on session on Selenium & mobile automation testing, selenium cucumber (BDD), Maven, Jenkins, Git and Database testing at Utthunga Technologies.
- 3 Days training on Selenium Cucumber framework for lateral batch at SLK Softwares.
- 10 days training on C# programming language for the fresher at Ecommerra in pune.
- 10 day training on Java-Selenium –Cucumber (BDD) and Appium at ABC technology.
- 4 Days details hands on training on selenium 3.0 and advanced framework creation for Maveric Systems.
- 6 Days intense training on Python-Django at UST-Global.
- 5 Days training on Selenium IDE, Selenium RC, Selenium Webdriver, Selenium Grid with framework, Build Management tool such as ANT, Maven, Git and Jenkins at UST Global.
- 4 Days training on selenium C#-Nunit-Specflow (Cucumber) at JLT group.
- 2 Days training on Python Programming language at JLT group.
- 4 Days training on selenium JavaScript-protractor for Infrd pvt Limited.
- 6 Days weekend intense training and hands-on in selenium test automation using Java cucumber and Ruby-Watir at Infinity Data.
- 4 Days training on Python-Selenium for a lateral batch in Gateway pvt ltd.
- 6 Days training on C#-Selenium-Specflow-MOQ for the experienced batch at Wipro.
- 5 Days training on Java-Selenium-Mobile testing (Appium) at Sapient.
- 5 Days weekend training for experienced selenium professionals on Mobile automation using appium at L&T.

- 45 Days training on .Net development C#, ASP.NET, ASP.NET MVC, MS SQL at Infosys.
- 6 Days selenium automation training and Appium at Aashai Technology.
- 8 Days training on C#, ASP.NET, SQL at Alcatel Lucent
- Selenium automation with Java, Selenium, Cucumber for 5 days at Arris.
- 3 days training on Test Automation Framework using protractor in UST Global.
- 6 Hrs online training on Test Automation Framework using Page Object Model for UST Global
- 6 Hrs ad-hoc training on Selenium Data Driven Testing and Key word Testing using RC for UST Global.
- 6 Hrs ad-hoc training on Selenium Data Driven Testing and Key word Testing using Webdriver for UST Global.
- 30 Days induction training for manual and automation testing using Python, C# at Epsilon.
- Mobile automation testing (Selenium) (5 days) for a batch of 4 professionals.
- Externally trained 200 resources to face selenium client interview.

#### TECHNICAL SKILLS:

Packages:	Microsoft Package (Word, Excel, Power Point, Publisher)
OS:	Windows and mac OS, Android and IOS, Linux
Tools:	Selenium, Appium, JIRA, ALM/QC, JMeter
Frameworks:	Junit, TestNG, Keyword driven low level and high level, Modular driven, Page objects, Page Factory, ASP.NET, MVC
Coding Languages:	Java, C# , C++ , HTML , CSS, DotNet
Methodologies :	Scrum Agile, Waterfall, V-Model.
DataBase:	MySQL, SQLite3, PostgreSQL, MongoDB

#### COLLEGE TRAINING PROJECTS:

- Selenium Basics at Kingston Engineering College (150 students)
- Placement training projects at Kingston Engineering college for IBS training and educations and SKR Engineering college for ETHNUS Consultancy. (600 students in batches of 100)

#### CERTIFICATIONS:

- URBANPRO CERTIFIED SELENIUM TRAINER (20<sup>TH</sup> June 2016)
- BRAINMEASURES CERTIFIED SOFTWARE TESTER (10<sup>th</sup> October 2016)
- BRAINMEASURES CERTIFIED SELENIUM TESTER (10<sup>TH</sup> October 2016)
- PRINCETON REVIEW CERTIFIED GRE,GMAT,SAT TRAINER
- Microsoft Certified professional/Microsoft Specialist: 70-483 - Programming in C#.
- Microsoft Certified professional : 70-461 - Querying Microsoft SQL Server 2012/2014

#### TECHNICAL EXPERIENCE:

##### Infosys Internal Project : Employee Dashboard

##### SDET (BDD Cucumber Testing)

It works with various platforms to manage the information and to manage the employee profile, online course progress, employee performance, etc. It is developed on dot net application with C# codings.

##### Responsibilities:

- Working on **Dot Net** backend coding, API development.

- Creating **BDD** document with use cases and specification documents.
- Generating **Gherkins** feature file for unit testing and Cucumber feature files for functional testing.
- Developing Framework on **BDD & Calabash** to test iOS & Android app.
- Handling HTML, CSS and JavaScript elements on web UI Testing.
- Managing the development team from offshore.

## **Badge OS**

### **Automation Tester**

It is a blended learning course designed by the New York City Department of Education to support middle school students in navigating the high school choice system. Facilitated by an instructor, this online course guides students through a series of activities that asks them to reflect on their interests, envision their future, learn about getting ready for high school and understand the high school choice process.

#### **Responsibilities:**

- Generating manual test document.
- Developed an automation framework using Java, Keyword driven, TestNG
- Generate automation scripts that run as a base for the framework.

### **INSTITUTE BASED TRAINING:**

- Trainer in enhancing resources for selenium client interviews.
- Trainer at RAM IT ACADEMY PVT. LTD. For selenium courses.
- Online training at BIX IT Academy, Ambition Academy, Trainings 24X7 and YesMSystems for QA courses (Selenium-WebDriver with JAVA, IDE) over webex, Go-to-meeting and Zoom meeting rooms for a batch size ranging from 1to20 candidates.

### **AREAS OF INTEREST**

Functional Testing (Automation), Web Services Testing, Manual testing, Performance testing, Framework development.

### **AWARDS AND APPRECIATIONS**

- Best employee award at Infosys for the year 2015

### **EDUCATION**

- Bachelor of Computer Science and Engineering at Sri Sairam Engineering College, Chennai

### **DECLARATION**

I hereby declare that all the information furnished above is true to my knowledge.
